Subject: Geneva

Jeffrey
fog in Geneva,
Current, 100 scattered clouds 200 overcast, visibility .9 to 1.8 miles. (Bel=w Minimums for our plane).

Forecast 40% probability at 10am to noon, 400 overcast and 3 mile vis.
(In Europe they forecast probability).

Small window between 1pm and 4pm, 500 scattered with 4 mile Vis.

It's a 40min flight,
We can try the approach, if we don't break out, my alternate airport is retu=n to Paris.

Paris forecasting fog by later tonight as well.

Geneva has better weather tomorrow, Friday, if we departed Friday and retur=ed Saturday, I might be able to get slots?

I'll keep you advised,

Thx
Larryv
