Dear Jeffrey,

me and Thom are working on a conference at Long Island Bahamas januar= 7-12, 2016, at Stella Maris resort , you are of course invited exce=lent people have signed up for the conference, they will help us to tackle=the question concerning the personal of the Center.

As you know there is a new situation in Long Island Bahamas due to th= big destruction caused by hurricane Joaquin, how it affects our plans?, well, it adds a new dimension to the motivation to build a Physics center i= Long Island Bahamas, in addition to the scientific side, such a project w=ll enhance the moral of the islanders and probably get strong support and =ndorsement from the goverment of Bahamas and other Bahamian organiza=ions, I am sure everybody will be very grateful to you if you were to part=cipate in the advancement of a high level center for Bahamas, for both sci=ntific and humanitarian reasons.

By the way, after all the destruction in Long Island Bahamas, I do no= think you have to worry about people in the center being distracted other=things, the Island is not so attractive now, scientists will feel now even=more isolated, just will have to worry about thinking and carrying out the=r research,

I am now back in Beer Sheva,  
best regards,

Eduardo Guendelman  
Beer Sheva, Israel.
