julian to be very clear if I have not already,=C2 The job done by your competent people in palm beach DID NOT fix the =problems. . they said they needed further help and assistance.=C2 the tables were not done nor finished , the table closures =A0 did not close and still are not right . the tables have a space d=wn the center. . there were many items that were n=t put together properly in savannah, the cabin doo= separate from the veneer, was banging on landing. and many p=nch items besides the latches were pointed out. th= openings to the switches did not stay up, the sink drain was =oose. as were storage doors. The veneer work is th= smallest and easiest piece of the pie. . your men thoug=t it would take 5 days apart from the veneer work to bring to =here is should have been. I look forward to your response.

Good morning Larry,

We want to apologize for the items requiring work in=Florida and am hopeful the items were corrected to your satisfaction. It i= our intention to make Mr. Epstein and you happy with your decision to all=w Gulfstream the opportunity. It was especially rewarding to me and others personally who worked with Dave =n the GII effort so many years ago.

I have reached out to our certification group to understand if removing the occupied latches is allowable. Early indication is that it should be ok but am awaiting final confirmation and will advise. We are also confirming veneer availability for the doors.

Do you have a time frame in mind you'd like to return for the veneer work? I have copied Rusty as well so he is advised. Please feel free to contact me should you need anything further.

Respectfully,

Julian Brown
