**Subject:** Re: Lutron lighting system status

why are the plates just being ordered now. i =hose them months ago?

On Sat, Sep 26, 2015 at 2:48 PM, Richard Kahn

Hello Richard and Merwin,

As you know the lighting system is not completed. =A0 While much of the lighting is fully functional there are a few location= that are not. The troublesome locations are the dimmed/switched out=ets. These locations had specialty wiring that will need further work from the electricians. Please note that =e have been assisting them as much as possible.

As you are both aware the starts and stops have adde= a lot of time to the project. I am confident that one more strong p=sh after Mr. Epstein departs on October the 5th and we will be =n good shape.

Punch List:

- =A0 Troubleshoot all outlets and correct RPM wiring as required.<=>
- =A0 Double check all load identification for accurate documentati=n for the as build system design.
- =A0 Install all engravings on keypads. (most should arrive this w=ek)
- =A0 Finalize additional customized keypads with specialty functio=s. (these are keypads with house wide commands)
- =A0 Order and install all customized antique plates. (note:=all keypads needed to be installed for proper custom dimensions. Mea=urements were performed on Friday and plates will be ordered on Monday. =A0 2-3 week lead time.

Please contact me with any questions, comments, or c=ncerns.

Regards,

Al
