Subject: Biometric

Good morning sir,

Jim from Security 101 came yesterday. He is looking for other products besides finger print scanner ie facial recognition that uses only a small camera.=For the meantime I'd like to try one more thing. When you scan your=finger, can you please start from the top of the reader and swipe down rather than swiping it halfway? It has a better chance reading more prints.

Thank you

Merwin Dela Cruz
