another near-death experience

one artery was occluded 99%—one more and i would likely have collap=ed in the street while someone called 911
a second occluded at 90%

in both stents were inserted and i feel world's better while the danger=br> has disappeared; there are some arteries with occlusions of 30 Or 40% but this is not enough to permit stents and can be handled by taking blood-thinning meds and anti-cholesterol (statins)

i would be released tomorrow and back to work in a couple of days

all best
