Subject: Re: October

agreed, help me through this . ♦=A0 why is not gravity merely the pseudo force that is a consequence of bot= he law of large numbers and the central limit theorem. . ♦=A0 the distribution of mass assuming the universe is effectively infinite.=forces particles together to keep the distribution the most probable .♦=A0 Einsteins idea that gravity is merely an aspect of mass. or a cur=ature of space time. is not as elegant as it simply is the result of=the most likely probabilistic state of particles. in the lyapunov central♦=A0 limit , taken over all space suggests to me that what physicists =ave seen as a curve is only the result of of most likely state. --=C2♦ I can find no satisfying derivation of the power laws. including new=onian gravity. general and special relativity give measu=ement but not cause.
