=au says you are the schools expert in category theory. =rue? . 2 . is there a topological equivalent to the power laws=
? 3 is there a geometric derivation that is coherent ? =, re language, as martin may have told you i have been spending
a gr=at deal of time with Chomsky. i have been trying to form=lize the concept of signals (images etc) that are
cohe=ent. . visual energy is first focused and then our vision system eve=tually recognizes -separates , real world
images from noise.=C2 a form of a map? then arguably makes judgements ba=ed on similar (distances from already
existing maps etc). images.=C2 , meaning etc. . skype or call might be help=ul when and if you have time
