Quote fire hawk

On Tuesday, September 8, 2015, Richard Kahn <[REDACTED]> <mailto:[REDACTED]> > wrote:

the existing screen is 113" diagonal

the largest the screen size could increase to would be 120" however that would require opening up the ceiling where the screen current is housed

Al's (lutron vendor) recommendation would be to keep existing size of 113" and replace with a Stewart fire hawk grey screen

I asked about black and he said that too would require opening up the ceiling

Should I have Al quote a Stewart Firehawk Grey screen or do you have other thoughts?

Please advise

Thank you
