The electrical panels that need to be installed are the last thing. It♦=80♦s a time consuming exercise. It's at least an 8 hour project, p=rhaps more.

They are working on the propeller shafts install now.

Then it's propellers and rubber fender installatio=. New Doors are in.

The marina is I think.

If the tree dig dates are firm and the=delivery confirmed then I think Bobby can zero it in.

I'm assuming. Bobby is t=e guy to ask.

[REDACTED] called about the payment. I advised he= that it was my opinion you were in favor of paying the invoice.

Hey Rich,

I asked Chris if he will be in PR for the loading of the Palms on the Barge and he said no because [REDACTED] have surgery that week. I think we should send 2 of our guys that normally assist Chris when we're planting Palms

I would suggest sending Dupson & Dalce to assist with the loading on the barge and Karl since he's barge mate.

I think it's best we have at least 1 guy from our team present. if possible, since Chris won't be available
