i just spoke with Al from Clarity regarding the Lutron p=object and he told me the following:

Monday they op=ned up the 1st and 2nd floor panels - They were forced to open both at onc= since they are both fed by the same circuit breaker

The 4th flo=r panel has not yet been touched and is fully operational along with the 3=d floor

There will not be any lighting all week other than tempo=ary construction lighting (see photos below) which is allowing them to per=orm their work

Unfortunately they cannot stop job as panels are =lready open and do not anticipate any functionality until Friday afternoon=</div>

At that point in time there will be moderate functionality of th= 1st and 2nd floors with 3rd and 4th floors remaining fully operational

Hello Richard and Merwin,

I trust that eve=thing is on schedule for us to begin dismantling the system this coming M=nday morning. Please advise us if there are any issues with us begin=ing then. Please note that lights will be out in most of the residen=e. We will have temporary lighting set up to allow us to work but ce=tainly not enough to cover the entire home.

ON a similar note and am hopeful that Mr. Epstein was okay with our &quo=;work in progress" appearance and that our presence wasn't a grea= inconvenience.

Regards,  
=span>Al

These are the lights Al is talking about

First floor panel. Wires taken out from the breaker and ready=to be pulled out of the wall

Second floor: Here is the new panel
