<=div>

We spoke=this morning. I told Terrence that we wanted to go to an hourly fee (=75). He said that that was fine. We talked about the servicing a=y equipment you decide to purchase and he agreed to do it. I wil= work amending the current agreement to reflect an hourly arrangement vs. a=monthly fee. He also dropped off some outstanding invoices.

With warm regards,

Cecile

Yes we are using Ruckus, and that is the basic unit=correct. Once again you have to add the premium support and upgrade t=e firmware. If you have any other questions feel free to contact me.<=div>

Good morning,=/div>

I sent out a email this morning but looks like it didn't go and i='s not saved, anyway.

LSJ gym link went down again this morning a=ound 5:00am, I did mange to get it back up quickly. I will continue t= monitor closely since it is very unstable right now.

After yesterd=y I think it's best we purchase some SMX3000RMLV2U +(1)SMX120RMBP2U. it's a=combo ups that can give us 6-8 hours of backup power. I also looked into th= solar panel backup unit JE asked about and Im going to prepare a quote for=both today and present them for your review and approval.
