Jeffrey

attached for your reference are photos showing the=grade stake (GS) at the NE Corner

As shown on sketch from Tim Oden the required amo=nt of fill is 9"4" to meet grade at the NW Corner closet to
MH</=iv>

The Plan would be to use a=lot of rocks and lose rock material for first stage of fill and then top o=f with 4 to 5
feet of compacted dirt. Dirt and rocks would extend 25 to 30=feet pass edge of proposed layout in this corner.

Are you OK with this?

regards Brice
