Jermaine sent 4 different potential views for your approval

In addition James sent instructions for you to set up on your iPhon= or Laptop

Please advise which view you like best and ♦=A0if you would like us to sign up for a 10 day history for \$100 per year o= 30 days for \$300 per year

Thank you

To: Richard K=hn [REDACTED]

For his iPhone / iPad, he'll need to install th= Nest app by Nest Labs — <https://appsto.re/us/3QYTB.i> <<https://appsto.re/us=3QYTB.i>> and then =ign in with these credentials:

u: [REDACTED]

p: [REDACTED]

The camera wi=l show up on the main screen.

For the laptop,=C2♦he can login at <https://home.nest.com/login> with the same credential= and the camera will show up on the main page there (requires flashplayer,=btw).

BTW: We can run as-is right =ow and see live video or we can add a "Nest Aware" subscri=tion and have it save 10-days (or 30-days) of video history online. 10-day=is \$100/year; 30-day is \$300/year.

Hi Jermaine,

I just checked in on the Nest the app and see that =he camera still isn't online, so I've removed it from the =ccount to make it easy for you to re-add it.

The next time you have a chance, please follow these steps=

1. Download and install the Nest app, and log in with the previous=credentials if you haven't already
2. When you're where the camera will be finally loca=ed, make sure your iPhone is on the island wifi network and open the Nest =pp.
3. Click the “+” / Add button and select Nest Cam from the list of devices
4. Scan the QR code on the back of t=e camera and follow the instructions to bind the camera to the account.

5. If prompted enter the USVI z=p code (it only determines the weather displayed on the home screen) and n=m the camera "Dock" or something similarly identifiable.=C2◆

=div style="font-family:SanFranciscoDisplay-Light">6. Once that's=done, you should be able to view the camera. Give a shout and I'll=confirm we can see it here.
