pickup?

This is getting ridiculous.. It seems to me that=it went from telling me that the seat is not original equipment to now its used leather. I used a special company to help me get all this done in the west coast. I fix the saggy part quick and nobody came to inspect it. No= your demanding new leather. Its all new and I want him to come in person to my shop. No more calls. This is all because communication issues between you and him. Im not paying the price for that.. I did exactly as I was told by you and what I said I was going to do! We went back and forth with this rear bench seat.. He also knew because he told me to order it. Someone needs to come monday to settle bill with a certified check or truck goes in storage assuming storage fees as posted on my wall at shop..

the leather is old on the seat and it is not new. the number of parts are irrelevant. you can speak directly with my principal if you prefer so I am not the man in the middle. you told both of us that you had a brand NEW seat in California that you would air freight. I don't know if it came in pieces or not. the leather on the seat, is clearly not new. you can replace the leather if you like in addition to showing me a bill that reflects a brand new seat which I have asked for all week.

Thank you.

Look at the diagram then look at the seats. Nobody makes an Aftermarket seat for this! Its all factory and works exactly that way. call the dealer and see for yourself to verify.. It took days to get this right.. the dealers do not want to be bothered.. It took 99s so many parts Plus so much work to put together.. It's all assembled piece by piece . To be honest we lost money on that part of the JOB. But I am not complaining. I Don't want to be treated like I'm cheating someone.. 20 plus years in business in NYC With a stellar reputation . I got the JOB done exactly like described. I took care of all issues. Some could have been avoided because of the middle person loop we have.. I hope this helps..
