Better Roads was never provided the plans =ubmitted by woods/engineer
Missing on bid:
32 Swales \$42,486
3" crusher run base/1360 tons with trucking \$90,712.
Asphalt was \$512,500
New Total \$645,698

Time line addition
5 additional days for swales
12/15 days for crusher run
Both swales/crusher 17/20 days on top of original timeline

If swales are put in after crusher run snd asphalt add \$250 per swale x 32 =3D \$8,000.

Also LSJ staff has to put in silt fencing as per plan and permit

I received the correct plans with all this additional information a few day= ago. Better Roads said they were not given this info by woods. Woods did =ot return Our call.

I strongly suggest doing these roads correctly. We will have a lot of washo=t, undermining and cracking pavement if we do not do the swales in the cru=her run.

How do you want to proceed
Call me if you need more clarification
