A quick question =o all:

With the =aving commencing next week, have all supervisors reviewed the paving =ap & plan and thought about future projects that would require =igging up the new asphalt?

Has Mr. Epstein thought =bout this Rich. Proper planning prevents costly mistakes. Two or three =" schedule 80 conduit pipes laid at each crossing/marked on a map/caps =n end secured with duct tape can save future digging up of the road and =atching asphalt never looks good.

- \* future =rrigation? - Chris
- \* future buildings needing =nderground utilities? - Danny V
- \* septic? - Danny =
- \* fiber optics cable? - Jermaine
- \* other?
- \* future lighting
- \* future building at tennis court?

I =m excited to be part of the LSJ team!

Best,  
Leighton
