Anna.

Fuel coolers out and inspected. Suggest replacement. I sourced them and re=orted the information to Gabe and Gene. They are considering including them=in a quote to you. I'm sending the same info to you as well.

Cleaned up a lot while looking for the transmission dipstick. Picked out r=placement fuel filters and planed new piping scheme.

Rumor has it there are issues with the hull and bulkhead under where the tanks were.

They had a guy cleaning in the engine room and I requested a new sleeve to=run the new control cables through. Stopped at 14:30 as there were too many=people in the same place to work the cable run
