My pleasure, Mr. Type IIB FCH (familial combined hyperlipidemia)!

No charge, but if you can help with 2 (unrelated) things I'll be forever grateful:

1. Patient referrals. I like working with people just like you who are in need of getting 5-15 years added to their life. I'm opening practice in NYC in Fall. Very boutique practice.
2. Intros to people who can fund our nutrition science work, especially folks interested in insulin resistance.

Let me know what time works for you on the 15th so I can block it out.

I'll get back to you when I hear back from the godfathers of lipoproteins, but I think the PCSK9 inhibitor is key.
