**Subject:** Re: FX

thanks!

btw part of it it's that I'm playing with Neural networks and specifically a thing called Neuro evolution which essentially means that you use a genetic algorithm (an algorithm that imitates natural selection) to automatically grow the neural network. If you have time, watch this video (it's 6 min long): <https://www.youtube.com/watch?v=qv6UVOQ0F44>

The guy shows how he implemented a Neural Network using the above technique that can play Super Mario (the video game), I think you'll like it
