Dear Jeffrey,

We look forward to.

I have been working on the paper for the institute.

I would prefer if you would write only to my e-mail about the institute, since there are other people who read Noam's e-mail and I would like to keep the subject more private at this point.

Noam will write about your questions. As always, you have very interesting ones. Very good abstract insights in my opinion.

Really glad that you want to support the project. It is a major incentive.

We'll be there on Thursday.

Valeria

<div dir="ltr">

I look forward to seeing you on Thursday. Is there anything in writing on the institute idea? I would send anonymously so as not to pollute the work with press.

Is Noam conversant with category theory as a notation for theories? (any science of relationships objects collections, including mathematics). ... is language the equivalent of a subset of the sound/time domain, organized as a coherent shape space. exactly the same as an image as a coherent shape space in the light/visual domain. both including a time component? ... permitted morphism in the space would map to sentences. as they would mappings to objects in visual space.

in my =iscussion this week with a large group of AI people , I quoted the =atural stupidity. story that you told me. . however, I thooug=t that as opposed to answers , the focus might be better on qu=stions. than answers. Common sense is common to most animals, =I sugggested that it is the ,what more? why not ? that seperates the=C2 higher functioning. ?
