We still =ave three weeks left to pay the second rate (paid the first one =lready). Mira (my wife) will send you the information. If we can make =t look as if the money comes from us instead from a corporate entity, =e the price will depend on our taxed income from last year. Tax returns =re not in yet, but we hope to get a substantial rebate.

Bests,
Joscha

Dear Richard,

Jeffrey tells me to send you my need list:

I will need some money for Taiyo's school (he will enroll in =he German International School), and we have to pay the tuition for the =ear in June. Aino will get into daycare this year. MIT has increased my =alary, so it covers now 2/3 of our living expenses. Jeffrey's last =onation kept us afloat until now; for the next year we will need about =9.000. (29K for tuition & daycare, 5K for traveling, 5K for =ardware and some appliances, 2700$ for car repairs and about 3900$ =onthly deficit between salary and expenses for rent, food, healthcare.) =ould you please help?
The wiring address is the usual one =MIT FCU).

Bests,

Joscha
