have you heard that Genghis Khan—for all=i know a gentle nomadic warrior—left 5 million Y chromosomes in hi= wake, surviving today?

45% of marriages in Iraq =re with first cousins of the doubly paternal kind—father's bro=her's child and this has been said to lead to easy fracturing of the c=untry which only a powerful dictator like Saddam could contain <=r> of course "we" destroyed the country and it lies in=ruins now—one end to the other

leave tomo=row for Ft Lauderdale and then Sunday on to California

as always, if you have an hour or so i will be there

i do so because four lines down i tell the "Gruter=tes"—Gordon Getty's echo chamber—that i have adde= you two to the list

so here is your chance to sa= "no way" and i will delete that from the message and likewise n=t ask Gruter's assistant to add your names to the list

<=div>
having said that, i find Gordon's missives much less burdenso=e than those from EDGE and certainly without the egomaniacal nonsense that=infests John Brockman—the key is to get the brightest minds in a r=om and have them tell each other what they think is most important =94or some such nonsense

neither David nor i can think of a single scientific advance achieved that way—most of what we do is simply concentrated sustained thought directed toward the foundations of a problem

i doubt Jeffrey has made a huge amount of money via the EDGE program

unless you say otherwise, i will shortly send you the key Getty missives in which he asserts, i believe correctly, that Trump is an archetypal narcissistic psychopath—or whatever the precise term is—and that he must be opposed with full force on that basis

meanwhile, David has heard plenty about you Jeffrey, a financial/mathematical mind of exceptional quality and you should know that David is one of the very top evolutionary geneticists still breathing and my teacher on every detail large and small

in haste and all best
