**Subject:** visit(s)?

Hello Jeffrey.

As Eduardo mentioned in an email, it would be our pleasure if you were to participate in the first BASIC meeting next January.

If that is not convenient, then perhaps the Miami 2015 meeting <<https://cgc.physics.miami.edu/Miami2015.html>> would be a possibility. Again, it would be a pleasure, especially if you could continue our great tradition of interesting after-banquet speeches.

Otherwise, I will be in San Juan next Thursday, and for several days after that in Puerto Rico. Would there be any chance to arrange a meeting then, either in Puerto Rico, or on St Thomas?

Regards,  
Thom Curtright
