Subject: Re:

Great idea,, looking at Live Cam.,

The weather is to warm to snow, Teterboro is currently 3=degrees, Windy, 50 degrees to 80 degrees direction at 17kts
gusti=g 24kts (FYI we landed the G550 yesterday, it was gusting 24kts)<=div> Visibility 5000 to 6000' (1mile)

=t 9am forecast 600' w/ 1/2 mile vis.,

At 2pm forecast sti=l 400' with 1/4mile vis 9pm tonight 400 scattered 700 ove=cast 1 mile vis wind out of north 16kt
gusting 26kts =/div> The other issue to concider, the ILS precision approach is to run=ay 6,,, then you break off the
approach in circle to land runway 1 You cannot break off the approach to circle, if the ceiling is at 400 fee=, you have to
land Street in runway 6

Newark is po=sible,, they have 2 north runways however, they are reporting Snow, since i='s 30 degrees in Newark
currently.

B= 7am tomorrow, ceiling 1500 broken / wind 330 degrees at 24kts gustin= 30kts

10am wind 24kts gusting 32kts

Thx
Larry
