I suggest you send the following to Heather. . =C2 =A0 =C2 Heather , the guys you sent down to palm beach were terr=fic, they all deserve a pat on the back. They tried as h=rd as they could , worked long hours. but were unable to fix many of the d=screpancies that the plane appears to have left Savanah with. =C2 hours to fit the tables. hours to try to get the front cabin d=or to close properly , tables almost right door =A0 unfortunately not even close. . During the flight to florid= it would not close at all. . the forward lave door also unab= to close. Heather I must say I am embarrased for my prin=ipal. I strongly urged him to use the factory to redo the inte=ior as opposed to completion shops at one third the price. I a= dismayed to tell you that even after two days in palm beach your su=ervisor said it would be another three to five in svanah again. and =n addtional five days to reveneer the cabin door. THere =re literally 40 items some fairly major that were overlooked. . =storage doors. not stowing. tables did not close properly, tab=es not put together properly, . the rear switch covers unable =o open in flight and now unable to stay open. . My boss =ook the test flight with his staff , and all were shocked by the rattles.=C2 cabin door . pounding. . latches not adjusted. . garbage cans left u= anchored. . switch plate in bathroom hanging off. . . =Your people were all professional and made a point to say they would get i= right , but needed MUCH more time and Manpower. =C2 I look forward to scheduling time to fix the various items. =A0 I know you have been helpful and really appreciate all you have d=ne. . I know the factory can do a much better job than it appears th=t they did in this case. Thnx again.
