inner domain, =A0 goals are self created. masturbatory fantasies. =or example. rewards in sub domains, social physical emotional.=, some hard wired food, temp. etc. a continuum of h=rd to self imagined. . adapted for the outer domain, I environ=ent, .

outer domain subject to laws of physics .=C2 inner domain , biologically yes,=C2 but ghosts, beliefs self deception and delusion, and most impo=tantly hope, all actualized.

It makes little =ense to apply an evidenced based system in the inner domain, i= is comprised of a non cummative li grouping, . no symme=ry for example. however the image of your fantasy girl c=njured up while you pleasure yourself , is a real to the innner self=as the cigarette you smoke afterwards is to the outer domain.

=A0 Inner rewards would have been subject to natural selection, =so that random killing in the inner world would unlikely be ad=ptive. acts of inner revenge however could blow off steam and =ave outer world consequences.

religion acts as one of many pr=posed belief systems to help construct an inner life. where th= unpowerful are effective. it makes as little sense for it to be a l=git system operating in the outer domain as little as a science base= view on the evidence of my fantasy girl. you should fin= some highly correlated inner and outer rewards but as many uncorrel=ted. depression might mean ignoring the outside altogether, , =etreating into an inner self in order not to do harm.

=he inner life should be normally distributed over subdomains as well as a =omgenious popualtion . so that some in the group receive social plea=ure, some only physical. etc.

In the game theo=y analogy, the reserves both in the inner and outer domain play a su=stantial role. . there are many experiments that show that a rationa= being modulates his reserves so that they last a long time. only in=certain circumstances can you access these reserves on purpose. =A0 jet pilots told to hold their hands in ice water , until th=y can't take it pull out in under 150 seconds. however if you te=l them to last for 180 to make the grade 80 percent are capable. .=C2 hope meaning purpose. all self created fictions that are selected =or. . there are outward signs , confidnece , smiling , that cr=ate an outer group;

religioin is a logic system that intersec=s that of science .ie being kind, has benefits in outer as we=l as inner domains - as goals are aligned, believing that moha=med rode to heaven on a horse. is ok, if it satiates the inner self.=C2 reduces blood pressure, , but unable to withstand the rigor of the o=ter mathematics. and is dangerous but so is that blonde, =A0 girl that always does as she is asked in your fantasy, =A0 . uh oh, you actually married her.
