I suggest you =end the following to Heather. . . =C2 =A0 Heather , t=e guys you sent down to palm beach were terrific, they all deserve a=pat on the back. They tried as hard as they could , worked lon= hours. but were unable to fix many of the discrepancies that the plane ap=ears to have left Savanah with. hours to fit the t=bles. hours to try to get the front cabin door to close properly , =C2 tables almost right door unfortunately not even cl=se. . During the flight to florida it would not close at=all. . the forward lave door also unable to close. =Heather I must say I am embarssed for my principal. I strongly=urged him to use the factory to redo the interior as opposed to completion=shops at one third the price. I am dismayed to tell you that e=en after two days in palm beach your supervisor said it would be ano=her three to five in svanah again. and an addtional five days to rev=neer the cabin door. THere are literaly 40 items some fa=rly major that were overlooked. . storage doors. not stowing.=C2 tables did not close properly, tables not put together properl=, . the rear switch covers unable to open in flight and now un=ble to stay open. . My boss took the test flight with hi= staff , and all were shocked by the rattles. cabin door . pounding.=. latches not adjusted. . garbage cans left un anchored. . switch pl=te in bathroom hanging off. . . Your people were all profess=onal and made a point to say they would get it right , but needed MU=H more time and Manpower. I look forward to =cheduling time to fix the various items. I know you have been =elpful and really appreciate all you have done. . I know the factory=can do a much better job than it appears that they did in this case. =C2 Thnx again.
