Dear Richard,

<=r>  
Today was fairly good day. All things, I prepared for differen= treatment, were reversed. I bleached several areas effected by mold. After=2-3 hours, I applied the toilet paper with 50% water and 50% alcohol. This t=eatment was actually necessary to pull all the chemicals from the bleached a=eas. When the paper dries out, it pulls all the residue out and leaves it o= the surface of the paper.

Tomorrow, I will check acidity and alk=li on the surface an if this will turn out balanced, I will start app=ying colored wax. Tomorrow, I hope to finish all surfaces ready for colored=wax application. I have some pictures on my phone. I am not very keen on ho= to send it to you, but I will try it. If you will not receive them tonight= I will ask Ann to help me send them tomorrow.

Br=ndon
