BBJ vs G550

Jeffrey

We both know the advantages and disadvantages to BBJ size aircraft.,

When I rode the airlines home Monday after arriving into Newark, I flew in a=Boeing 737-800 series aircraft,. We flew the same route returning to PBI at FL380 (38,000) feet., We experienced Moderate turbulence for 2 hours straight since we flew in the=cloud tops, I would imagine tops were 41,000, since we topped the clouds a= 45,000 in the GIV.,

I'm confident to say 80 - 90% of the time we would avoid weather in a be BBJ= but summer months would be high altitude days.,

Just my thoughts
