Subject: With greatest love from London

Jeffrey, I honestly wish there was=something more I could do for you than just send you my most loving though=s and wishes...

You've made so many peo=le's lives so much better, mine included. You've helped so many wh=n they were in desperate need.

I remember L=sley telling me that [REDACTED] had told her that you had rescued them from pov=rty and she was so grateful to you. Before you came along, the question ha= not been what was for dinner, but if there was dinner at all... I'm s= sorry that people have such short memories and I'm sorry the world do=sn't know what a generous, empathetic and brilliant man you are. =/div>

You are the highlight of my life.

Always with love,

[REDACTED]
