ABC News should be skeptical of [REDACTED] allegations, and should proceed with caution in republishing them. As an example of one readily provable falsity, [REDACTED] swore under oath before a federal court that she sat next to former President Clinton at a dinner party on Mr. Epstein's island in the U.S. Virgin Islands. Mr. Clinton has never been to Mr. Epstein's island, a fact that ABC should be able to readily verify.
