Or we could=say...

\$250 a day to run the barge and  
\$150 a da= to over see a project.

He's not running the =arge or fixing anything he's just over seeing and making sure all is c=rrect.

Your thoughts?

Bosco will not be needed on sight all days and we=should consider converting his 250 per day  
to:

a)=8 hours = 31.25 per hour  
b) 9 hours = 27.77 per hour

let me know your thoughts

Greetings R=bel,

Suggested plan of action:

Boscoe will report via email to you directly, copying=me and Rich.

Gene will report directly to you.

Boscoe will let you know what days he is needed at S=bbase Drydock, in advance.

Boscoe's reports s=ould be daily, whether he is reporting directly from Subbase or via Gene&#9;s report to him. The reports should include work completed, when h= is on site, photos, any issues that arise.

We wo=ld like to encourage Gene to also keep a photo log of the work progress, a= well as time sheets, if possible.

Obviously you =ill be JE's point of contact for the project.
