Dear Sven,

The intention was to have clear feed-back from Jet, =s you said it is Easter tomorrow.

Best

Steve

Good morning Seyidi,

As discussed the LHT gentlemen are available from th= 9 Apr. next Thursday to start doc. review. Please check that your confere=ce room, or a meeting room at handling would be possible for 4 days.

The following week (week 16), they (certifying staff=LHT) would like to check the aircraft and perform various checks, so hanga= place with SRT or SWISS will be required for 2-4 days. I would also reque=t that certifying staff from JGVA are available to oversee activities.

Thank you for your urgent confirmation.

Best regards,

Steve Wilson

Gentlemen,

I got the first information from my team I would like to share ahead of the=proposal:

- on-site team would be available on 09.03
- 4 days docs review, than physical inspection
- boro inspection: just hot section inspection or "full blown" wi=h video
- testflight: no LHT staff is expected on board

To get everything together and all questions discussed with you, we suggest no starting before the 9th, more realistic is the 13.04 or the days in between.

Please take into account that we have the Eastern weekend ahead of us starting with two public holidays tomorrow and on Monday.

Regards

Sven
