**Subject:** RE: A simple proposal to start the center, 4 fields and 4 coordinators

Dear Thom and Jeffrey,

yes, some modifications like that could be done,

like

Charles Thorne as the mathematical physics/string theory

also, concerning

1. Gravitation, Astrophysics and Cosmology, coordinator Alexander Vilenkin, Tufts University ,

may be we subdivide , too many subjects for Alex, so I suggest

1. Astrophysics and Cosmology, coordinator Alexander Vilenkin, Tufts University ,

2. Gravitation, Gary Gibbons, Cambridge

best,

Eduardo
