Subject: talk on work you supported

dear Gordon and Jeffrey

i attach a link to a 13 minute new kind of TEDx talk i gave via internet to Costa Rica

https://vimeo.com/121156632

i hope you enjoy, it describes the work we did in setting up the project, in running races14 years later and the analysis of the elite sprinters

it has some excellent visuals; if i could figure out a way to measure ████████'s behind without being shot to death before i could exit U Tech campus i would do so—in any case, you can enjoy a gorgeous photo of her leg along with an additional twist or two to the argument (which we hope soon enough to follow up on)

but far now

this is what you two brought about and i am extremely pleased with the results

all best

bob
