Hi Jeffrey,
I got these comments from Thom, which sound reasonable
....=..
I looked in some detail at the IAS in Princeton, and the Perimeter Institute in Canada, to try to get some ideas. The thing that struck me most about both of them is their size ... in comparison to CECS, for example, they are much larger than we should expect to be able to set up in the Bahamas, at the beginning. So, CECS is a better example

But of course, we should be able to attract many short and long term visitors to Long Island from both IAS and Perimeter, especially from the latter in the middle of winter.
....=....................................
Hope we can talk today, I will be able to introduce to you my Chilean cosmo=ogy colleagues if we talk during the time they will be at the University h=re!

Best,
Eduardo=?xml version=.0" encoding=TF-8"?> <!DOCTYPE plist PUBLIC "-//Apple//DTD PLIST 1.0//EN" "http://www.apple.com/DTDs/PropertyList-1.0.dtd">
