Hi Gregory,

This could be another option by Louis Cane in Paris. He is a very talented artist/cabinet maker using different techniques including 17th and 18th century coromandel panels. His style might be closer to what you are looking for and his furniture is made in the tradition of quality of the best cabinet makers of the 30's and 40's. Please find some images attached of a console that was commissioned to him : it is way too long for you but this will give you an idea.

Please let me know what you think.

Best regards,

Jean.
