**Subject:** Re:

Greeting Sir,

The Pebble Beach roof still needs the Vulcan product to be applied, which will be scheduled as soon as the storm surges abate. The roof must be completely dry. After that the salvaged solar panels from GSJ will be installed by Danny E.

In the event that the solar panels do not work as planned, Mike Glidden already has an alternative solution. [REDACTED] has confirmed with TJ that all the materials are on site, just awaiting the waves to settle down.

Respectfully,

Daphne
