Jeffrey
When I sent the first message, all is good ,,maintenance moved 7500 of the 1=,00bs of fuel,, we have in the right wing.,
All appeared normal, once 10000 lbs was reached fuel started to drip from th= main hose connection point located on right wing,

Very easy repair except the Miami vendors do Not open until 8am tomorrow so d=parture will need to be delayed ,,
Maintenace will call other vendors tonight,

I will be at Boeing at 6am to give update

Thx
Larry
