Jeffrey,.
Straight left and Right going thru EQ.,and Full range playing thru Paris and=Berlin speakers now.

Crossover is Only working subwoofer single channel,, We removed crossover mid/highs and fed direct to EQ.,

The crossover is channel 1 and 2, not left and right,. back panel of crossov=r allows for only channel 1 is mid/high and channel 2 is low/mid., Would require one more crossover if you elect to keep it,. Current EQ is wor=ing MId and Highs,.

Let me know how it sounds,. Better voice range, needs your adjustment on EQ.=

Thx
Larry
