CHiiMP is a narrowband sol=tion which connects via IRIDIUM satellite network, providing Gl=bal SMS and Text Email capability for your Apple mobile dev=ces. CHiiMP also features GETMAIL, the ability =o check your own inbox headers and upload those emails that=20are important to you. CHiiMP has been designed=20to comply with the latest EASA and FAA regulations in reg=rd to operations of Portable Electronic Devices (PEDS). 's Microcell is classified as a "PED" and design=d to be stowed in a certified mount, connected via a cert=fied power source and interfaced to an existing Iridium data =ort. Once powered up it creates a Bluetooth Network on the =ircraft, so passengers and crew with the CHiiMP =pp on their iOS device can connect.
