Hi Je=frey,

I look forward t= seeing you when you are next in NY. In the meantime, I'll put together a funding proposal for the foundation. Possible categories are: sig=al cell intelligence, age manipulation, AI, cancer, Alzheimer's.

Could you send me your pri=rtiy of topics (as specific as possible within each field) so I can p=t together a proposal of the most compelling research initiative= out there?

<=r>

Also, if t=ere are any existing research projects that you want me to get more inform=tion on-- let me know.
