**Subject:** GIV airshow

Jeffrey

Appears the Monitor is not working on GIV, Could be a programming / Operator issue, since Eric's Bose/Airshow system is difficult to work,, I tried FaceTime with Dave yesterday and worked with Pete trying to get a picture,. When you turn power on airshow, the Cooling fan operates, but no picture,. So airshow will be inop until I get a chance to work the monitor on GIV,.

Still same weather forecast for NY tomorrow, snow begins around midnight tonight, light dusting, then by 8am calling for Moderate snow, 800' ceiling, 1/2 mile vis,, By 4PM tomorrow calling for 800' overcast, 1 mile visibility most of the day,,

Thx  
Larry
