Understood.

If the repair can be made in place it'= gonna take two days to do it.

Lee is scheduled for St Martin on Saturday so if =t can be done we are gonna have to deal with two days out of the few we =ave till the principal arrives, unless the repair, or the visit gets =ushed back. The consequences of either are undetermined.

Ok
Will adjust schedule accordingly
Please note there maybe a need to work
Saturday, please let Karl know

Good Evening.

Before the 10:00 run with Jonny for the container, Lee Thomas is performing a feasibility study to see if the bent rod can be removed and replaced with the engine installed on its ways or in its present place.

If it can't, it's really gonna complicate things...
