Subject: Re: noam.. detailed travel info

krauss , I have been reseraching the various power l=ws. zipf pareto. and various distributions. . =A0 i have some financial insights on the subject. . however =A0 the more i play in the field , and find what could be described as an a=junct to the central limit theorem. . there is no" force" that p=shes these events into a power law distribution. why is =ravity different. why is it not no more than a power law distribuiti=n ,

Hi Noam. Absolutely= I was just thinking about this. My wife and I are currently planning to c=me down to Santa Fe on the 21st and stay with our friend and then we can a=l travel to Phoenix on the 22nd in the morning and you can check in the ho=el and relax in the afternoon before our even, during which you and I coul= spend sometime going over things we might discuss during the dialogue. Th=n in Monday morning I am assuming you will leave with Jeffrey in his jet t= Boston.

I can try and get some detailed po=ential departure times if you want.
