Appears the Monitor is not working on GIV,

Could be a programming / Operator issue, since Eric's Bose/Airshow s=stem is difficult to work,,

I tried FaceTime with Dave yesterday and worked with Pete trying to get a pi=ture.,

When you turn power on airshow, the Cooling fan operates, but no picture,. So airshow will be inop until I get a chance to work the monitor on GIV.,

Still same weather forecast for NY tomorrow, snow begins around midnight ton=ght, light dusting, them by 8am calling for Moderate snow, 800'=ceiling, 1/2 mile vis,,

By 4PM tomorrow calling for 800' overcast, 1 mile viability most of t=e day,,

Thx
