Appears the Monitor is not working on GIV, Could be a programming / Operator issue, since Eric's Bose/Airshow =system is difficult to work,, I tried FaceTime with Dave yesterday and worked with Pete trying to get a p=cture,.

When you turn power on airshow, the Cooling fan operates, but no picture,.<=r> So airshow will be inop until I get a chance to work the monitor on GIV,.

Still same weather forecast for NY tomorrow, snow begins around midnight to=ight, light dusting, then by 8am calling for Moderate snow, 800 =80 ceiling, 1/2 mile vis,, By 4PM tomorrow calling for 800' overcast, 1 mile viability most of=the day,,

Thx
