some ideas on spending remaining money of approximately =0,776.15:

- a) =ervers 10,000
 - b) TV (price not yet =etermined) - leave 10,000 deposit
 - c) new copy =achine / scanner - est 26,000
 - d) prepay terrence =or service contract
- (i have not yet paid terrence his =inal balance due of 91,119.85 as he has not been able to provide me =ith open items list which i have asked for 10 =ays now - money must be paid by 1/31 as part of 400k)

Just to keep you updated. I spoke with Craig =gain this morning. He is still in communication with his =istributor on whether they can 'really' deliver the TV =EE wants – he originally told me \$29K and only 3 =available in US - but he doesn't want to but in a written =quote till he has a firm commitment he can deliver on.

I do not think this will be happening before the =0th.

The numbers we have to date are
Spent to date =nbsp; &n=sp; \$288,104

Balance due Terrance =nbsp; \$91,119.85
Total spent and committed \$379,223.85

Left to =pend &nb=p; =nbsp; \$20,776.15

Server preliminary number (although not the =orrect kind) \$10,000 assuming we can get the correct ones from =aribbean consortium we could give them a deposit

And may be give Craig a deposit of \$10,000 (are we =omfortable with this)

See JEE's attached email on the TV he wants.

I spoke with Craig this morning. He is waiting on a call back from his distributors – he advised that the TV JEE
=ants is not out yet and they were going to contact the executive office to see when it will be available - he did say the
same TV is out in 65 inch so I asked for a quote on that (hopefully today). <p class="">

If you have any stateside distributors you deal with or any other suggestions please let me know. We have to
bring in locally but if we can get Craig from wire-it in touch with them that might work.

Thanks
Jeanne
