Subject: incident during my run to the airport with Ms. Melina

Good day Boss,

So =hat you are aware of an incident during my run to the airport. A large =rane style vehicle was reckless had the boom to high and pull down a =arge branch which fell in front hit the bush guard of the =uburban. After checking the welfare of our guest (she was =artled only), the tires and the undercarriage, I determine the vehicle =as not damage by rolling over the branch. I continued to the airport. =nce at the airport, and after I assisted the guest with the =uggage. I cleared the leaves and debris from the bush guard I notice =he hole in the plastic silver grill. The bush guard is not damaged and =he radiator was not touch. I have informed Anna and Cecile already. I =id not want to interrupt your visit with your associates, but I wanted =ou to know.

I =ill be getting a quote for the local dealer for a =eplacement.

My apologies sir, I wish I could have =voided the branch, but it was too sudden.

Regards

JRuan
